# Total Address Quality

OFFERING ENVELOPE SERVICES FROM AMERICANCHURCH, INC.

Returned mail is expensive, it means your message didn't get to your church members. That's why customers using ACI'S mailing program love Total Address Quality (TAQ). It's a multi-step process that scans, cleanses and modifies address information into a format acceptable by the U.S. Postal Service. TAQ helps improve overall data quality, increase productivity and reduce waste caused by undeliverable mail pieces. In short, it saves time and money, and your message is delivered on time to the right person.

Features

- Our **Intelligent Mail Barcode** system employs the latest vision systems to monitor printing and insertion, and printed barcodes enable to us receive address correction information from the US Postal Service®.
- Regularly run integrated addresses change services allow us to make your mail "Move Update" compliant and your address list always up-to-date.
- The OSV **Confirm™ Service** monitors your mail through the USPS to verify the progress and assure on-time delivery.
- The state-of-the-art **Online List Manager** manages names and addresses, providing you instant address correction and a Zip+4® code.

- Reduce postage costs
- Reach more members
- On-time and accurate delivery
- Continuous improvement of your envelope lists
- Save time looking up addresses
